Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

**PETITION TO WITHDRAW HOLDING OF ABANDONMENT
OFFICE ACTION NOT RECEIVED**

A Notice of Abandonment was issued on April 18, 2007 in connection with the above identified application for failure to file a timely reply to the (official action, notice of allowance, notice to file missing parts, restriction requirement, other).

Applicant's undersigned attorney hereby petitions to withdraw the holding of abandonment in this case on the basis that the Non-Final Office Action dated September 11, 2006 forming the basis of the abandonment was not received.

As evidence of the non receipt of the Non-final Office Action dated September 11, 2006 attached is:

1. Exhibit A - Redacted copy of the mail log record which discloses receipt of all correspondence received from the PTO on or about there mail date of the received Office Action.
2. Exhibit B - Redacted copy of the docket report on which the Office Action would have been entered had it been received.
3. Exhibit C - Sample of Docket Process Form

4. Exhibit D - Declaration of Jacqueline M. Neuman who is the individual who would have handled the Office Action had it been received.
5. Exhibit E - Declaration of Steven B. Samuels verifying that the redacted copies of the mail log and docketing report do not contain the alpha code "MSFT-3026" which is the alpha code for the present matter.

- ☒ Applicants authorize the Commissioner to charge Deposit Account No. 23-3050 in the amount of the petition fee. Upon granting of this petition applicants request an immediate refund of the petition fee.
- ☒ The Commissioner is hereby authorized to charge any deficiency or credit any overpayment of the fees associated with this communication to Deposit Account No. 23-3050.

Date: May 18, 2007

DECLARATION OF JACQUELINE M. NEUMAN

1. I am the Docket Supervisor at Woodcock Washburn (the firm) and have worked in the firm's Docket Department for 28 years.
2. Mail is opened, sorted and date-stamped by the Support Services Personnel at the firm who are trained to identify, collect and forward all office actions to the Docket Department.
3. Once the mail has been opened, stamped and sorted by Support Services, the Docket Department is contacted and the sorted mail is reviewed again by the Docket Department to be certain all office actions and PTO notices have been collected for docketing.
4. The Docket Department then verifies the proper identification of each office action via the firm's computer docket system (IP Master). After proper identification, each office action and notice is entered onto the firm's Mail Log, which serves as a written

record for documents received from the U.S. Patent and Trademark Office (PTO) at the firm on a daily basis. The Docket Department personnel initial each action on the upper right hand corner. Copies of the firm's Mail Log for the period of September 11, 2006 through October 11, 2006 are attached as Exhibit A. The Mail Log has been redacted to avoid showing certain client-identifying information. However, except for this redaction, Exhibit A represents the actual Mail Log for the period stated.

5. After the mail is processed by the Docket Department, it is returned to Support Services for copying. When the copying is completed, the original actions and the copies are returned to the Docketing Department.

6. The Docket Department checks the copies and then distributes the originals to the appropriate secretaries and prosecution paralegals and retains the copies for processing of due dates, and the like.

7. Upon receipt of the original actions by the secretaries and/or paralegals, they, pursuant to instructions, look for the date stamp and the initials in the upper right hand corner of the action. These two notations together indicate that the action has been properly processed thus far and that a copy has been made for the Docket Department to assure that the action was entered into the firm's docket system and mail log. If either the date stamp or initials are missing, the secretaries and/or paralegals, pursuant to instructions, assume the action has not been properly processed and bring it to the attention of the Docket Department immediately.

8. Once the item is entered onto the docket software (IP Master), the item will appear on a Rolling Docket Report at the appropriate time frame for four weeks prior to the deadline and continuing until the deadline. The weekly docket reports are distributed to attorneys, secretaries and paralegals for monitoring purposes. A copy of the segment of the Rolling Docket Report covering items due December 11, 2006 is attached as Exhibit B and shows that nothing appears for this case in that time frame. Additionally, the Docket Department runs a special 2-day docket report check and E-mails attorneys and their secretaries of outstanding, non-extendible deadlines. Further the Docket Department receives daily an E-mail of the "Out List" for the firm which identifies persons who are not present at the firm. The Out List is prepared by the Receptionist so that the Docket Department can be made aware if an attorney or secretary was out. This would enable the Docket Department, to alert an alternate party, if necessary.

9. Once an Office Action or notice is responded to, the secretary or paralegal sends the Docket Department a Docket Process Form, a copy of which is attached as Exhibit C. The Docket Process Forms identify the case by country, serial number, filing date, due date, and client, and also identifies the communication sent to the PTO and the date it was sent. Each of these areas must match the computer record before a due date is removed. In this way, the Docket Department can safely remove a due date from the action field and place it in the action history of the records.

10. The firm never received the Rejection dated September 11, 2006 as is apparent from the attached Mail Log (Exhibit A). It is noted that during this time period, many communications from the PTO were received. However, the communications received

do not include a Rejection for Serial No. 10/776,370 (Docket No. MSFT-3026). If the Rejection had been received, it would have been logged in accordance with the foregoing procedures.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that willful false statements and the like are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any registration issued thereon.

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

DECLARATION OF STEVEN B. SAMUELS, Esq.

1. I have been an attorney at firm Woodcock Washburn LLP since 1992.
2. I am the partner responsible for the prosecution of United States Serial No. 10/776,370, filed February 10, 2004, also known as Woodcock Docket No. MSFT-3026.
3. I have completed a thorough search the file and my office and have concluded that the Office Action indicated as mailed on September 11, 2006 was not received by Woodcock Washburn LLP.
4. Enclosed is a redacted copy of the mail log record, which discloses receipt of all correspondence received from the PTO on or about the mail date of the non-received Office Action and a redacted copy of the docket report on which the Office Action would have been entered had it been received. I have reviewed both these documents and confirm that the Official Action was not entered on either report due to the fact that it was never received by our office.
5. I confirm that the copies of the mail log record and docketing report have been redacted to exclude the alpha code assigned to a given client. Each of the firm's docket numbers is an alpha numeric code. The alpha code represents the given client while the numeric code identifies the particular matter for that client (e.g., MSFT-3026 identifies Microsoft as the client and matter number 3026 corresponds to United States Application No. 10/776,370). Disclosure of a given alpha code could potentially identify our client to the public upon issuance of the application in question. In addition, such disclosure could be construed to reflect confidential information of those respective clients. Accordingly, the alpha code portion of the docket numbers on the enclosed docket report and mail log have been redacted.

6. I further confirm that any numeric code "3026" appearing on the docket report or mail log corresponds to an alpha code other than "MSFT".

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
